

Saic volkswagen group automotive energy storage

Overview

What's new with SAIC Volkswagen?

The partners are focussing on an accelerated electrification strategy - including, for the first time, range extender models. The new agreement is intended to strengthen “the SAIC Volkswagen joint venture with consistent strategic initiatives in the areas of product portfolio, production, and decarbonization,” VW Group writes.

Who is SAIC Volkswagen?

“Volkswagen and SAIC are pioneers of individual mobility in China. Together, we established one of the first international joint ventures in the region 40 years ago. Since its establishment, SAIC VOLKSWAGEN has earned the trust of more than 28 million customers.

Why is Volkswagen partnering with SAIC?

Over the past four decades, the Volkswagen Group, together with its Chinese partner SAIC, has precisely aligned its strategy to meet the needs of Chinese customers. With the Santana, millions of customers were enabled to enter the world of individual mobility.

Why should you choose SAIC Volkswagen?

The focus for SAIC VOLKSWAGEN is on the development of new, intelligent electric vehicles in order to maintain an industry-leading position in the field of smart technologies. The decisive factors here are consistent customer orientation, quality management and the use of our own innovative strength. We will break new ground with ‘China Speed’.
