

School solar storage project financing options in New Zealand 2025

Overview

Is there a solar solution for schools in New Zealand?

There is a solar solution available for every and any school in New Zealand. (See above, Otonga School with arrays on several roof areas - Genesis Energy School-gen/Power Technology) According to the Sustainable Energy Association New Zealand (SEANZ) solar is now the largest form of new generation being installed around the world.

How does power technology support schools in New Zealand?

Through this programme Power Technology supported schools across New Zealand, and built up the necessary experience concerning the installation of solar arrays on schools. Power Technology has installed solar on to more schools than any other solar company in New Zealand.

Can a school install solar on a roof in New Zealand?

Power Technology has made sure that the New Zealand Solar Schools programme is made available to every school, anywhere in New Zealand – as every school should be able to install solar on to the roof of their school.

Who installs the largest solar arrays in New Zealand?

Ian Hastie, Principal Avalon Intermediate School (see above, Avalon Intermediate School students posing in front of their new solar array) Power Technology has the largest portfolio of large arrays installed on schools throughout New Zealand. We have added a list of 6 large arrays installed by Power Technology:.

Why is nzgif investing in solar?

NZGIF is continuing its investment in solar by providing an \$8 million senior debt facility to finance solar panels on schools across New Zealand, alongside energy services provider solarZero.

Should schools buy or lease solar panels?

When evaluating costs, schools may consider a large capital investment upfront to purchase and install the solar panels, in comparison to leasing. Leasing solar panels means there are no upfront costs, and schools and kura pay a fixed price to the solar panel company, usually at a rate lower than existing energy costs.
