

## Shanghai stock exchange sets up energy storage theme

## Overview

---

What is China doing with new energy storage?

In just a few short years, China's scale of new energy storage has ranked first in the world. New models and new business forms are developing vigorously, with smart microgrids, virtual power plants and others entering the fast lane of development.

What are China's new energy storage business models?

China's new energy storage business models have already shifted. Energy storage products with high technical performance, strong safety assurance, and reasonable costs will be more competitive in the market and will also promote the industry's continuous upgrade toward high-quality development.

What are the top 10 Chinese companies in energy storage system shipments?

In the first half of 2025, the Top 10 Chinese companies in terms of energy storage system shipments in the global market were, in order: Sungrow, CRRC Zhuzhou Institute, HyperStrong, Envision Energy, SCETL, XYZ Storage, ROBESTEC, Sunwoda Energy, CSI Solar, and Trina Storage.

How big is China's energy storage capacity?

As of the first half of 2025, China's cumulative installed capacity of new energy storage reached 101.3 GW, surpassing 100 GW for the first time, which is 32 times that of the end of the "13th Five-Year Plan."
