

Solar storage inverter project financing options in Nigeria 2030

Overview

Can a company build a stand-alone solar project in Nigeria?

“Within just a few months of opening this programme in Nigeria, companies can start building transformative stand-alone solar projects,” said Anita Otubu, Senior Director, Universal Energy Facility.

Can a solar project be funded in Nigeria?

This is the first grant funding window under the Stand-Alone Solar for Productive Use programme in Nigeria. The UEF has identified many additional viable projects for financing in future waves.

What is the Stand-Alone Solar for Productive Use programme?

The Stand-Alone Solar for Productive Use programme is a grant funding initiative that supports solar projects. This is the first grant funding window under this programme in Nigeria. The Universal Energy Facility (UEF) has identified many additional viable projects for financing in future waves.

How much CO2 will be saved by the solar projects?

The UEF estimates that approximately 5,400 tons of CO2 equivalent per year will be saved once all of the proposed solar energy projects are implemented. As stand-alone solar energy projects, they will alleviate the need for businesses and services to rely on expensive, polluting fossil fuel generators as their source of power.
