

Solar storage inverter tender price in France 2026

Overview

What will France's next solar tender entail?

France is set to continue its solar momentum with the next tender round offering 925 MW, scheduled for December 2024. In addition to solar, the eighth PPE2 tender for onshore wind allocated 755 MW across 48 projects, achieving an average tariff of €87.92/MWh, consistent with the previous round.

How many MW does France need for a solar PV project?

France has awarded 339 MW of new capacity in its latest PPE2 tender for ground-mounted solar photovoltaic (PV) projects, which called for 700 MW but ended up undersubscribed and saw an increase in the average proposed price. Solar panels. Photo by: Neoen ().

How much does a ppe2 solar project cost in France?

The French Ministry of Ecological Transition this week announced 71 winners in its PPE2 tender for ground-mounted solar photovoltaic (PV) projects with an average proposed price of EUR 58.84 (USD 65.23) per MWh. Neoen's Cestas solar park. Photo by: Neoen ().

How much does a mw project cost in France?

The average price of the proposals stood at EUR 68.51 (USD 69.95) per MWh, up from EUR 58.84/MWh recorded in the initial tender, in which 71 projects were awarded. In terms of capacity, the largest winner is a unit of Q Energy France, which bagged a 66-MW project in Lac des Longchamps.
