

Standalone energy storage project financing options in Saudi Arabia 2025

Overview

How many GWh of energy storage will Saudi Arabia have by 2025?

Projections indicate that Saudi Arabia aims to operate 8 GWh of energy storage projects by 2025 and 22 GWh by 2026, positioning the nation as the third-largest global market for energy storage, following China and the United States.

Which is the largest energy storage project in the Middle East?

This facility stands as one of the largest energy storage projects in the Middle East and Africa. The Bisha BESS, owned by Saudi Electric Company , comprises 122 prefabricated storage units designed and supplied by China's BYD.

Does KSA have a storage service agreement with SPPC?

Each SPV will enter into a 15-year Storage Services Agreement with SPPC. As part of Vision 2030, KSA aims to supply 50% of its electricity from renewable energy by 2030 and has set a clear plan to transition its energy mix towards solar, wind and other renewable energy sources.

What is SEC doing with BYD energy storage?

In a strategic move to further bolster its energy storage capabilities, SEC has entered into agreements with BYD Energy Storage for additional projects totaling 12.5 GWh. Combined with the existing 2.6 GWh project, this collaboration amounts to a substantial 15.1 GWh of energy storage capacity.

Standalone energy storage project financing options in Saudi Arabia

Solar & Storage Live KSA 2025 (Riyadh)

Solar & Storage Live KSA is Saudi Arabia's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more energy efficient system. The show unites all stakeholders - ...

Saudi Arabia: Bidders revealed for 8GWh battery ...

In addition to public-private partnerships such as through SPPC, Saudi Arabia will host gigawatt-hour scale battery storage facilities to integrate renewable energy at major infrastructure projects such as the Red Sea Project ...

RFP Template_2022 Redlined (D0508788-3)
