

Standalone energy storage tender price in Hungary 2026

Overview

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. [Home » News » Electricity » Hungary awards EUR 158 million for 440 MW of energy storage.](#)

How will the Hungarian government support residential PV in 2024?

In 2024, the Hungarian government continues to support the growth of residential PV through its newly launched Napenergia Plusz Program, a grant scheme for the installation of modern solar panel and storage systems with a total budget of HUF 75.8 billion. The scheme is expected to support over 15,000 households.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system – a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

How much solar capacity does Hungary need?

Hungary has set a target of 12 GW of solar capacity by the start of the next decade. However, grid capacity shortfalls have been dire, hampering primarily the rollout of large-scale solar. The country's revised National Energy and Climate Plan envisages the construction of a total of 1 GW of storage capacity by 2030.

Standalone energy storage tender price in Hungary 2026

Bulgaria's Ministry of Energy opens 3GWh tender for ...

The Bulgarian Ministry of Energy began accepting applications yesterday (21 August) in tenders for 3,000MWh of energy storage capacity.

Bulgaria's 3 GWh standalone energy storage tender ...

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy ...

Hungary decides to fund 440 MW of storage

The Hungarian government has provided 62 billion forints (169 million dollars) for energy storage projects. Around 50 grid-connected energy storage projects with a total ...

Hungary's energy storage tender: How the upcoming ...

During this webinar, our expert speakers will

analyze the tender results, what they mean for the future of Hungary's BESS market, and what investors can expect for the years to come in terms of the feasibility and profitability of storage projects.

NVVN's 500MWh Storage Tender Breaks New ...

NTPC Vidyut Vyapar Nigam's (NVVN) first standalone energy storage tender has broken new ground with record low tariffs. While the bids come with viability gap funding, even after accounting for that, the winning bids ...

Greece opens tender for 200 MW of battery storage

Greece has launched its third tender for battery energy storage capacity, seeking to award 200 MW of projects, which will compete for subsidies of EUR 200,000 (USD ...

[energy storage tender price 2024](#)

5 · The Bulgarian Ministry of Energy is readying to launch a tender on September 2 and provide CAPEX support for the construction and commissioning of 3 GWh of standalone energy ...

PowerChina receives bids for 16 GWh BESS tender ...

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...

Greece Launches Final Tender for 200 MW Battery ...

Greece has launched its third and final tender under a 1-GW program to support standalone battery energy storage systems (BESS), aiming to allocate 200 MW of capacity with available subsidies of EUR 200,000 (USD ...

[Hungarian storage tender](#)

Storage tenders 2 storage tender rounds planned: 1st round: Q3 2023 (tender call to be published soon) 2nd round: Q2 2024 Projects to be completed until 2026-2027 (in 36 months), if not met, ...

State aid: Commission approves EUR1.1 billion Hungarian ...

Member States can set up schemes for investments in all renewable energy sources, including renewable hydrogen, biogas and biomethane, storage and renewable heat, including through ...

EDPR secures 160 MW of energy storage in Polish ...

EDPR has secured 17-year contracts for two projects, one with a 60-MW/241-MWh capacity and a commercial operations date (COD) set for 2026, and one of 100 MW/400 MWh with a COD scheduled for 2029. Polish ...

Spain launches two energy storage programmes with EUR280 million

One of the two programmes will be directed towards pumped hydro energy storage. Image: MITECO. The government of Spain is launching EUR280 million (US\$310 million) ...

The Standalone Energy Storage Market in India 1

Key Findings Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for 64% of the ...

Hungary: 'advanced' subsidy scheme to drive BESS market

The Hungary panel discussion at the event. Image: Solar Media. Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system ...
