The German Energy Solutions Initiative, coordinated and financed by the German Federal Ministry for Economic Affairs and Climate Action (BMWK), aims to globalise German and European technologies and expertise in climate-friendly energy solutions. Years of promoting smart and sustainable energy.

Turkish developer YEO and Zambian sustainable energy company are constructing a 60 MW solar plant with a 20 MWh battery energy storage system in southern Zambia. Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage.

The project, said to be the largest grid-connected solar facility in Zambia and the biggest of its kind in sub-Saharan Africa excepting South Africa, cost \$100 million and is now ready to be commissioned. Every day, we handpick the biggest stories, skip the noise, and bring you a fun digest you can.

With its energy storage investment market projected to grow by 18% annually through 2028 [thanks to juicy solar potential and mining sector demands], this Southern African gem is becoming a hotspot for savvy investors. The recent 30MW solar + 60MWh storage project by China's Sany Group [1] [4].

For German and European service providers active in the energy sector, Zambia presents significant potential for business development. There are clear needs across the solar energy and storage value chain, including project development and financing, equipment manufacturing, system integration and.
