TendersOnTime, the best online tenders portal, provides latest Bulgaria Solar tenders, RFP, Bids and eprocurement notices from various states and counties in Bulgaria. TendersOnTime, the most comprehensive database for Government Tenders and International Tenders; collects information on Solar from.

Projects ranging from 200 kW to 2 MW received 107.5 million leva, while larger projects above 2 MW received 427.5 million leva. The first group had a contracted power generation capacity of 435 MW and energy storage capacity of 176 MW, while the second group had a power generation capacity of 2.66.

There is no minimum amount of funding. The maximum amount per project proposal per company is up to BGN 35 854 000 (€ 18,331,859). The maximum grant intensity is up to 50% of the eligible costs but not more than BGN 1 075 706 (€ 550,000), excluding VAT per MW of installed ESF capacity. To be.

The Bulgarian authorities awarded BGN 526 million (\$284 million) to 397 renewable energy projects in the country's latest procurement exercise. The Bulgarian Ministry of Energy has announced the final results of the country's first renewable energy auction. The government allocated BGN 526 million.

The APSTE has highlighted that Bulgaria's state-imposed fees for solar panels and energy storage solutions are stifling progress towards sustainable energy goals. Currently, the fee for solar panels stands at BGN 0.90 (approximately EUR 0.46) per kilogram—over 11 times greater than similar charges. Where can I find latest solar tenders in Bulgaria?

TendersOnTime, the best online tenders portal, provides latest Bulgaria Solar tenders, RFP, Bids and eprocurement notices from various states and counties in Bulgaria.

How many solar projects are there in Bulgaria?

Currently, Bulgaria operates over 800 megawatts of wind projects Bulgaria has an annual average of 2,100 hours of solar irradiation. As of 2023 over 1,700 megawatts project are operational in Bulgaria and it is growing substantially. Geothermal energy is gaining attention, with legislative proposals to harness Bulgaria's geothermal potential.

How much solar power does Bulgaria have?

Moreover, estimates from the Bulgarian Association for Production, Storage, and Trading of Electricity (APSTE) indicate that Bulgaria has tripled its installed solar capacity since 2020, with a projected annual growth of 450 to 750 MW over the next three to four years.
