

Successful bid price of domestic energy storage project in Italy 2026

Overview

The 2026 Italian Capacity Market auction assigned 42.8 GW of derated capacity and saw awarded prices for new capacity dropping to 56.2 €/kW, while clearing prices for existing capacity remained at the price cap. When will Italy's new energy storage capacity procurement auctions take place?

Terna's thinking. The date is set. The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, Francesco Del Pizzo, has confirmed.

When is Italy's leading energy storage event 2026?

Join us on April 15–16, 2026 for the 3rd edition of Italy's leading event on energy storage. The 2025 edition confirmed that energy storage is steadily advancing, with important regulatory updates, stronger public support at both EU and national levels, and increasing project execution.

How much does a CDP cost in Italy?

Existing Capacity Premiums: Existing capacity received 1-year contracts at the price cap for eligible CDP, rising from 33 €/kW (2022-2024) to 46 €/kW in 2026. Italian operators benefit from stacking CM revenues with high Clean Spark Spread-driven merchant revenues.

How did Terna calculate the 2028 storage needs?

Terna calculated the 2028 storage needs by balancing two factors: how much renewable energy would otherwise be wasted (valued at natural gas plant costs) and how storage improves grid reliability (valued at €8,000/MWh yearly for 4-hour systems).

Successful bid price of domestic energy storage project in Italy 202

Europe Energy Storage Market 2024-2030

In Europe Energy Storage Market, Over the next decade, the top 10 countries in Europe will add 73 GWh of energy storage, amounting to 90% of new deployments.

Energy storage to soar in Spain and Italy but questions remain

Energy storage is set to soar in Spain and Italy in the coming years but there are question marks around the regulatory frameworks in each.

2025 energy storage system bidding ranking

Which energy storage projects shipped the most in 2023? As for small-scale energy storage projects, CATL, REPT, EVE Energy, BYD, and Great Power shipped the most. The top 5 list ...

Carbon Removal in Italy - National Policy Overview

Relevant legal frameworks Italy has yet to adopt

a proper domestic climate law. Legislative Decree 162/2011 provides the legal framework around geological CO2 storage in Italy and specifically defines the competent ...

Italy's Energy Storage Breakthrough: How Recent Auction Wins ...

This isn't just another clean energy milestone. It's a strategic play to solve the country's solar curtailment crisis while stabilizing its grid--something Germany and France have struggled ...

White paper BATTERY ENERGY STORAGE SYSTEMS ...

Wholesale market optimisation involves leveraging the energy storage assets to maximise revenues by price optimisation and time shifting in an auction for electricity delivered on the ...

Italy: Trina Storage deploys 9.3MWh BESS for group's ...

Subsidiary Trina Storage has commissioned the 9.3MWh battery energy storage system (BESS) project in Torre di Pierri, Italy, in the province of Taranto, southeast Italy. The owner of the project is Trinasolar's ...

European and American energy storage project bidding

This led to an acceleration of domestic energy storage bidding projects since March. According to statistics from the energy storage and power market, the bidding capacity of domestic ...

MACSE Italy: Countdown to Europe's Largest Energy ...

Read more here about one of Europe's largest energy storage opportunities, with 10GWh of battery capacity on offer - roughly equivalent to all of Italy's currently installed storage.

Storage auctions in Europe

For professionals working in the energy storage sector, 2023 has been for sure a year full of tenders and new support schemes dedicated to energy storage in many countries, ...

TAX FREE

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Prices of Energy Storage Systems in Italy: A 2025 Market Deep Dive

Did you know Italy's energy storage sector is growing faster than a truffle hunter's heartbeat? As of 2025, the global energy storage industry hits a staggering \$33 billion annually [1], and ...

BESS Investment in Italy: Which Market Option is Best?

Right now, battery storage projects aren't making enough money without some form of government support in Italy - that's why choosing between these market mechanisms is so crucial. The capacity market in the ...

Recurrent Energy Secures 6 MW BESS Capacity in Italy's 2026 ...

Recurrent Energy has secured 6 MW of battery energy storage system (BESS) capacity for its Montalto project in Italy's Lazio region through the country's Capacity Market ...

BESS industry gears up for Italy kick-off with first MACSE auction

The grid-scale energy storage market in Italy holds promise with very ambitious deployment targets for 2030 - but are they too ambitious?

How much does it cost to build a battery energy ...

To produce this benchmark, Modo Energy surveyed various market participants in Great Britain. We received 30 responses, covering 2.8 GW of battery energy storage projects - with commissioning dates from 2024 to 2028.

Italy 'is route into BESS for capital that is excluded ...

The energy storage market in Italy has unique characteristics that mean more risk-averse investment funds will be able to enter.

BESS Investment in Italy: Which Market Option is Best?

Right now, battery storage projects aren't making enough money without some form of government support in Italy - that's why choosing between these market mechanisms ...

What is the bid price for the energy storage project?

The bid price for an energy storage project is determined by various factors, encompassing 1. project specifications, 2. regional market conditions, 3. technology selection, ...

Industry News -- China Energy Storage Alliance

Actively Exploring Energy Storage Application Scenarios In the era when the industry is fully shifting toward marketization, the reform of the electricity spot market is accelerating, the mechanisms for energy storage ...

Bidding Overview of Domestic Energy Storage in June

The average bid price in June reached 1.12 yuan per Wh, marking the lowest price point this year. Specifically, the average bid price for energy storage system equipment ...

[2021 Five-Year Energy Storage Plan](#)

The Electricity Advisory Committee (EAC) submitted its last five-year energy storage plan in 2016.¹ That report summarized a review of the U.S. Department of Energy's (DOE) energy ...

How Italy is Driving BESS Investment

This blog is the latest addition to our new series, "Introduction to BESS (Battery Energy Storage Systems) Markets". In this blog, we review market developments and key drivers for BESS in Italy. Key Takeaways: Renewable ...
