

Successful bid price of photovoltaic ESS project in Zambia 2025

Overview

The grid-connected 100 MW Chisamba solar PV project, in Zambia, has secured \$71.5-million from financial services firm Stanbic Bank Zambia, with financing anchored by a 13-year power purchase agreement with GreenCo Power Services.

The grid-connected 100 MW Chisamba solar PV project, in Zambia, has secured \$71.5-million from financial services firm Stanbic Bank Zambia, with financing anchored by a 13-year power purchase agreement with GreenCo Power Services.

The grid-connected 100 MW Chisamba solar PV project, in Zambia, has secured \$71.5-million from financial services firm Stanbic Bank Zambia, with financing anchored by a 13-year power purchase agreement with GreenCo Power Services. GreenCo will supply the energy to copper mining company First.

vices (GreenCo), a leading SADC and Zambian renewable energy trader. GreenCo will onward supply the energy to First Quantum Minerals (FQM), Zambia's largest mining investor, under a separate Power Supply Agreement (PSA)—delivering fir e to be achieved without sovereign guarantees or government.

South-Central African country, Zambia, has inaugurated its largest grid-connected project, known as Chisamba solar power plant, with a capacity of 100 megawatts (100 MW) to be added to the country's national grid. The President of Zambia, Hakainde Hichilema, launched the projects on Monday, 30th.

The Ngwenya Solar Project, led by Emerging Africa Infrastructure Fund (EAIF), secured a \$30 million loan to finance a 100 MWp solar power plant in Zambia. This project, located 40 km west of Lusaka, will play a crucial role in addressing Zambia's power shortages and advancing the country's.

Zambia's state-owned Kariba North Bank Extension Power Corporation has reached financial close on a 100 MW solar PV project in Chisamba, Central

Province. Backed by \$71.5 million in commercial debt from financial institution Stanbic Bank Zambia, the project is anchored by a 13-year Power Purchase.

The newly \$100 million Chisamba solar plant in Zambia is set to offer stable power supply for the country's mining operations. The project, built by the Chinese state-run energy giant PowerChina and financed by Zambia's national utility ZESCO will supply power to First Quantum Minerals, a company.
