Why did the Sultanate of Oman buy a solar project?

The Company earlier notified that, the procurement of this solar project is part of the Sultanate of Oman's government policy to diversify energy resources to meet the growing demand for electricity.

How many MW of solar is installed in Oman?

According to the International Renewable Energy Agency (IRENA), Oman had installed 672 MW of solar by the end of 2023. Towards the end of last year, Sembcorp Utilities began commercial operations at a 588 MW solar plant in northeastern Oman more than four months ahead of schedule. A 20-year power purchase agreement is in place with PWP.

Which energy companies are preparing a bid for a solar power plant?

A consortium of Abu Dhabi Future Energy Company (Masdar), Korea Midland Power (KOMIPO) and Al Khadra Partners makes up the first listed bid, while a partnership between ACWA Power and TotalEnergies Renewables forms the second bid.

When is PWP launching a solar project?

PWP kicked off the tender in January 2024. It received twelve submissions from local and international developers, with nine applications qualifying to submit proposals in June last year. The Ibri III solar project, with an estimated project cost of OMR 155 million (\$402.6 million), has a scheduled completion date of the first quarter of 2027.

How much will PWP invest in New solar IPPs?

Articulating its strategy to achieve these ambitious targets, PWP announced last December plans for the development of a swathe of new Solar IPPs with a capacity aggregating around 4.5 GW and an estimated investment of \$2.8 billion, over the next six years.
