Successful bid price of solar storage inverter project in Vietnam 2025

Overview

Explore the new solar tariff framework set by MOIT to enhance pricing transparency for solar power plants in 2025.

Explore the new solar tariff framework set by MOIT to enhance pricing transparency for solar power plants in 2025.

For projects without battery storage, the tariff will be VND 1,382.7 (\$0.053)/kWh for the northern part of the country, VDN 1,107.1/kWh for the central part, and VDN 1,012.0/kWh for the southern region. For solar power plants relying on battery storage systems, the FiTs for the three regions will.

HÀ NỘI — The Ministry of Industry and Trade (MoIT) has officially issued the 2025 electricity generation price ceiling framework for various types of power plants, including hydropower, gas turbines using natural gas and solar power. The decisions came into effect on April 10, 2025, in line with.

The electricity price framework for hydropower plants in 2025 is from 0 to 1,110 VND/kWh (excluding water resource tax, forest environmental service fees, water resource exploitation rights fees, and value-added tax). The maximum price is 1,110 VND/kWh. 2. Electricity Price Framework for Gas.

Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on encouraging battery energy storage systems (BESS). This policy move, effective throughout 2025, was formalized through Decision.

Decision 988/QD-BCT, issued by the Ministry on April 16, 2025, introduces a new solar generation pricing framework in Vietnam. This change affects both traditional and floating solar systems, including those with and without storage solutions. To gain deeper insight, we must consider each aspect of.

On 10 April 2025, the Ministry of Industry and Trade ("MOIT") issued Decision 988/QĐ-BCT, which sets forth the electricity price framework applicable to solar power plants for the year 2025. This framework, issued by the MOIT,

ensures transparency and consistency in pricing, serving as the. How much does a solar plant cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MoIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without battery storage, the tariff will be VND 1,382.7 (\$0.053)/kWh for the northern part of the country, VDN 1,107.1/kWh for the central part, and VDN 1,012.0/kWh for the southern region.

What does Vietnam's Solar Policy update mean for energy storage?

Vietnam's solar policy update highlights growing role of energy storage. (Photo: iStock) Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems.

Does Vietnam have new feed-in tariffs for solar power?

April 2025 | Southeast Asia Impact Alliance Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on encouraging battery energy storage systems (BESS).

What are the conditions for solar storage in Vietnam?

Conditions for systems with storage include a minimum storage capacity of 10% of the solar plant's installed capacity, a charge/discharge time of 2 hours, and at least 5% of total generation used for charging the storage system. Overall, projects with storage receive higher FIT rates. Previously, Vietnam's FiTs were relatively low.

What are the new fits for solar power projects?

These updated FiTs aim to enhance grid reliability while aligning with the nation's broader energy transition strategy. The most significant development in this update is the introduction of differentiated tariffs for solar power projects that incorporate battery storage.

What is the electricity price framework for hydropower plants in 2025?

1. Electricity Price Framework for Hydropower Plants (Decision No. 982/QĐ-BCT): The electricity price framework for hydropower plants in 2025 is from 0

to 1,110 VND/kWh (excluding water resource tax, forest environmental service fees, water resource exploitation rights fees, and value-added tax). The maximum price is 1,110 VND/kWh. 2.

Successful bid price of solar storage inverter project in Vietnam 202

Vietnam raises solar feed-in tariffs with energy ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems.

VIETNAM: LEGAL ALERT - ELECTRICITY PRICE ...

The electricity price framework for 2025, applicable specifically to solar power plants, outlines the maximum allowable tariffs across regions and plant types. Below are the detailed provisions:

Approving the price framework for electricity generation from

3 ???· - The Ministry of Industry and Trade has just issued decisions approving the electricity generation price framework for hydropower plants, natural gas-fired combined cycle thermal
