

## Successful bid price of solar with battery project in Bulgaria 2030

## Overview

---

Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (€590 million/US\$540 million) for up to 50% of the construction costs of 3.1GWh of standalone energy storage projects.

Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (€590 million/US\$540 million) for up to 50% of the construction costs of 3.1GWh of standalone energy storage projects.

Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (€590 million/US\$540 million) for up to 50% of the construction costs of 3.1GWh of standalone energy storage projects. The bids meanwhile total five billion BGN of requests for financial.

Bulgaria's Ministry of Energy has officially announced the final results of the country's first renewable energy auction. In this procurement event, the Bulgarian government allocated a total of 526 million Bulgarian leva to 397 renewable energy projects. The funding was divided into two project.

The Bulgarian authorities awarded BGN 526 million (\$284 million) to 397 renewable energy projects in the country's latest procurement exercise. The Bulgarian Ministry of Energy has announced the final results of the country's first renewable energy auction. The government allocated BGN 526 million.

Bulgaria greenlights 249 renewable energy projects, investing EUR 269 million to boost sustainability with 2,660 MW of new energy parks and 1,000 MW of battery capacity! Bulgaria has approved 249 projects for renewable energy and battery storage, totaling approximately EUR 269 million, funded under.

Renewable energy resources are not a technology of the distant future – wind and solar generation are here and meet a significant part of current energy demand. There is also more room on the horizon for electricity storage batteries, which can stabilize the renewables boom by helping the grid. In.

Ongoing technological advancements, coupled with decreasing prices of PV modules, position Bulgarian PV for significant success Achieving the 1 GW

target for new solar capacity on the grid in 2023 and bringing the total PV fleet close to 3 GW puts Bulgaria on track to fulfill its 3.2 GW NECP. Is there a solar PV project in Bulgaria?

Karad, an existing solar PV project in Bulgaria. Image: RP Global. Bulgaria's Ministry of Energy has launched two tenders to add 1,425MW of renewable power generation to the grid and 350MW of battery energy storage system (BESS) projects.

Will battery projects improve energy security in Bulgaria?

The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The scheme was opened by the Ministry in May, and approved by the EU last month.

Which energy storage projects have been selected in Bulgaria?

The Ministry of Energy of Bulgaria has selected 82 winning energy storage projects for a share of BGN 1.15 billion (€588 million) in financial support. Power generation firm Hidroelectrica has enlisted local firms Prime Batteries Technology and Enevo to deploy a large-scale BESS project in Romania.

Why is energy storage growing in Bulgaria?

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

How much solar power does Bulgaria have?

Moreover, estimates from the Bulgarian Association for Production, Storage, and Trading of Electricity (APSTE) indicate that Bulgaria has tripled its installed solar capacity since 2020, with a projected annual growth of 450 to 750 MW over the next three to four years.

How much money does the NRRP provide for energy projects in Bulgaria?

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding.
