

## The latest subsidy policy for energy storage projects

## Overview

---

Will China keep implementing policy incentives for energy storage?

To effectively guarantee its grid stability of renewable energy sources, the Chinese government is expected to keep implementing its policy incentives for energy storage in the near future. This particular dataset provides us with the technical specifications of an energy storage system and allows us to calculate the model parameters.

Will state aid be available for large-scale electricity storage systems?

In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage systems (BESS), one from the Modernisation Fund ("MF ") 1 - and the second under the National Recovery and Resilience Plan ("RRP ") 2.

Can a subsidy policy be activated or terminated at an uncertain time?

The subsidy policy, however, can be activated or terminated at an uncertain time and therefore, the firms face additional policy uncertainty when making the decision. We derive the investment thresholds of the market spread that the firms use to make a decision on investing immediately or holding an option.

How will the European Commission support large-scale energy storage in Spain?

The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available for standalone energy storage sites, projects installed alongside renewable energy facilities, and storage planned as part of thermal power plants.

How does a subsidy removal policy affect firms' willingness to invest?

The threshold decreases as the expectation of the subsidy removal policy

increases during the implementation stage for a given policy intensity. This indicates that under current favorable policy situation, the firms' willingness to invest now increases as the expectation of subsidy removal policy increases. Fig. 2.

Can Spain deploy large-scale energy storage with co-financing of 85%?

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%. The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain.

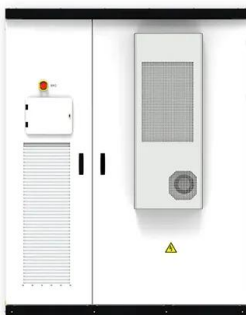

## The latest subsidy policy for energy storage projects

### An energy storage roadmap study incorporating government ...

3 ???· This study proposes a subsidy mechanism optimizing fiscal interventions for energy storage development, coupled with Monte Carlo-based revenue projections generating risk ...

o 2022-2025: With the implementation of the compulsory energy storage policy under China's 14th Five-Year Plan and local subsidies for investment projects (20-30% subsidy rate), coupled ...
