

Turnkey Solar Inverter EPC contract price in Czech

Overview

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

What happens if the EPC contract is uncertain?

Any uncertainty in the EPC Contract may unfortunately see the Contractor liaising directly with these third parties and possibly risking the relationship of the Project Company with key influencers, customers and long-term neighbours.

What are the prospects of solar power production from photovoltaic power plants?

Solar power production from photovoltaic power plants (PVPP) has great prospects. The constantly decreasing costs of photovoltaic technology makes solar power fully competitive with electricity supplied from the grid. Solar power is one of the inexhaustible energy sources.

What are the disadvantages of an EPC contract?

Another major disadvantage of an EPC Contract becomes evident when problems occur during construction. In return for a guaranteed price and a guaranteed completion date, the Project Company cedes most of the day-to-day control over the construction.

Do EPC contracts impose PLDs?

Most, however, do not impose PLDs. EPC Contracts impose PLDs because the achievement of the performance guarantees has a significant impact on the ultimate success of a project. Similarly, it is important the solar facility commences operation on time given the liability the Project Company will have under other project agreements.

Turnkey Solar Inverter EPC contract price in Czech

Turnkey Solar Power Project at Hutti Gold Mines

The document is a draft EPC contract between Hutti Gold Mines Company Limited and a contractor for a turnkey solar power project. The contract outlines the scope of work, responsibilities of contractor and employer, terms of ...

Turnkey Solar Systems Australia - Commercial EPC Experts
