

Turnkey residential solar battery EPC contract price in Cyprus

Overview

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

What is the maximum power of a net-billing photovoltaic system in Cyprus?

The maximum power of a Net-Billing photovoltaic system in Cyprus is 8 MW. It is an extremely beneficial scheme which helps people make a profit by generating and using Renewable Energy Sources. Read more Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption.

What is the maximum power of a net-metering photovoltaic system in Cyprus?

The maximum power of a Net-Metering photovoltaic system in Cyprus depends on the power supply of each building. The maximum power of a photovoltaic system with a 1-phase power supply is 4.16 kW and of a photovoltaic system with a 3-phase power supply is 10.4 kW. What is the power of a Net-Billing photovoltaic system in Cyprus?

.
