

## Vice president of china-europe energy storage association

## Overview

---

What is the China energy storage Alliance?

Subscribe to our newsletter The China Energy Storage Alliance is a non-profit industry association dedicated to promoting energy storage technology in China.

What are China's new energy storage business models?

China's new energy storage business models have already shifted. Energy storage products with high technical performance, strong safety assurance, and reasonable costs will be more competitive in the market and will also promote the industry's continuous upgrade toward high-quality development.

What is the western China energy storage Forum?

After ten years of deep cultivation, the "Western China Energy Storage Forum" has grown into an important platform promoting coordinated development of new energy and energy storage in western China.

What does the EU-China Energy Cooperation platform say about energy security?

A new report from the EU-China Energy Cooperation Platform aims to strengthen the understanding of energy security in China and the EU in the context of the energy transition. Recent extreme weather events and geopolitical tensions have laid b [Read more. ] China leads the world in adoption of solar power and heat pumps, as well as EVs.

What is China doing with new energy storage?

In just a few short years, China's scale of new energy storage has ranked first in the world. New models and new business forms are developing vigorously, with smart microgrids, virtual power plants and others entering the fast lane of development.

Which energy storage system integrators ranked best in China in 2025?

At the same time, Chairman Haisheng Chen also released the shipment data of Chinese energy storage technology providers and energy storage system integrators in the first half of 2025. CATL, CRRC Zhuzhou Institute, and Sungrow ranked at the top. The specific shipment situation is as follows:

## Vice president of china-europe energy storage association
