

Warehouse solar storage project financing options in Philippines 2025

Overview

What is solar & storage live Philippines 2025?

As the global climate crisis intensifies, the Philippines is stepping up with bold energy ambitions. Solar & Storage Live Philippines 2025 serves as a dynamic platform to showcase cutting-edge solutions, foster dialogue, and drive collaboration across the solar, energy storage and broader clean energy ecosystem.

What is solar energy storage future Philippines?

“Our mission is to connect stakeholders and drive tangible progress in Philippine renewable energy.” Each year, Solar Energy Storage Future Philippines convenes government representatives, C-level executives, project developers, technology providers, financiers, and researchers.

Which solar projects have been completed in the Philippines?

Completed projects include the SPNEC-developed 150 MW Concepcion project on Luzon, commissioned in 2019, and in 2016, the 63 MW Calatagan solar farm in Batangas, Luzon – the first utility-scale PV project developed and constructed by a Philippine company. The company is also developing the 500 MW Nueva Ecija Solar Farm, also on Luzon.

Why should you attend a solar & storage assembly?

This diverse assembly enables the exchange of knowledge on the latest solar and storage technologies, promoting best practices for a more resilient and sustainable energy system. Key Agenda Topics
