

Wholesale lithium ion storage price list in New Zealand

Overview

Where can I buy a lithium battery in New Zealand?

Cell-Supply NZ is the leading lithium battery store in New Zealand, offering a wide range of genuine, brand-name, high-quality lithium batteries. Batteries like the 18350, 18650, and 21700, are all part of our varied range. We take pride in offering the most up-to-date and newest supplies of both cells and chargers.

What is a lithium ion battery used for?

Li-ion batteries are used in a wide range of devices, from smartphones and laptops to electric vehicles and grid-scale energy storage systems. In New Zealand, lithium-ion battery technology has become particularly prevalent, with lithium-ion battery NZ companies offering sleek and powerful energy storage solutions for homes and businesses.

How much does a lithium start battery cost?

Great news for the racing fraternity and others who care about weight and performance. Lithium start batteries are here ! We have been carrying out extensive testing and are now available \$499.00 720CCA and 3.8Kg. Not sure what battery you need?

.

Why is the lithium-ion market so scarce?

The current lithium-ion market is becoming increasingly scarce as demand outpaces supply. Demand for lithium-ion batteries has soared due to the popularity of electric vehicles, leading to a surge in fake cells and some suppliers overstating capacities and outputs. No matter what, we will never compromise on the quality of our batteries.

What is a 12V lithium ion battery?

12V lithium-ion batteries are also commonly used in marine and recreational vehicles, providing a reliable and long-lasting source of power for those on the move. With advances in technology, lithium-ion batteries are becoming safer and more efficient, which means that we can expect more innovative and sustainable energy solutions in the future.

What is the maximum capacity of a lithium battery?

Currently, the most powerful 18650 batteries are about 3500mAh in capacity or 35A in amps, you cannot have maximum capacity and output it is always a trade-off. 21700 cells with their larger size can offer a capacity of 5000mAh or an output of 45A. New to Lithium Batteries?

We are located in Tauranga.
