Yinlong lithium-titanate-oxide batteries boast an expansive operating temperature range from -40°C to $+60^{\circ}\text{C}$. Excelling in both extreme cold and hot conditions, these batteries operate optimally without the necessity for any supplementary equipment to sustain their functionality. Our LTO batteries.

Yinlong will continue to quicken the pace of the technological and industrial development of energy storage systems and promote an energy sustainable development in China. Yinlong Energy is a world leading Energy Storage Systems (ESS) company. We have the most advanced battery technology, and we.

Yinlong Energy Storage Systems (ESS) has achieved a significant milestone in its development. In 2023, the company's total capacity reached 8,000 MWh, with a cumulative capacity of 10GWh. The company's AGC (Automatic Generation Control) system has been successfully implemented, marking a major step forward in its smart grid capabilities. The company's "AGC+ESS" solution has been widely adopted, providing a comprehensive energy storage and management solution for various applications.
